MARKET BEACTIVE AT CLOSE.

New York, Aug. I.—Early prices in the stock market today tended upward again, on what proved an erroneous assumption that President Harding's plan for a settlement of the railroad strike would be accepted by the opposing interests.

Licipation of higher tariff protection. Oils followed no definite course, but shippings were heavy on the selling of derivantile Marine preferred. Sales amounted to \$85,000 shares.

Call loans hold at 4 per cent throughout the sension, that rate being regardests.

Despite the uncertainty in the strike situation, rails as a whole offered greater resistance to bearish aggressions than any other group. St. Paul common and preferred registered highest srices of the year, with atrength in New Haven on reports that the latter company would regain some of its former traction subsidiaries.

Advances in rails were largely im-paired in the more reactionary course of the market during the final hour. Specialties of the mail order class, such as Bears-Roebuck and Montgomery Ward, had their periods of activity and strength, and several of the textiles, sotably Mallinson, were bought in an-

sets.

The market reacted sharply later, however, in the absence of more than moderate public support and pressure against motors, rubbers, steels and equipments, which seemed to originate largely from professional sources.

Selling of motors apparently was impelled by announcements of further cuts in the prices of several popular makes of cars. The reaction in rubbers was attributed to similar conditions in the lites trade.
